Requirements: <ul style="list-style-type: none">• Must be installed by a qualified, insured contractor. New equipment installations only.• Mail completed application and a copy of the itemized invoice to Red Lake Electric Cooperative.• Electric heating system must be on RLEC's off-peak with a qualified backup heating system.• Electric heating must be the primary source designed to heat the building.• Electric heat is individually metered under a special rate. Rebate incentive will be applied towards the usage on the off-peak meter.• Electric heat equipment must be hard wired (no plug-in loads eligible for rebate).• Air-source heat pumps do not have to be part of an off-peak heating system to be eligible for this rebate. Credit will be applied to electric bill.	
I agree to verification of equipment installation, which may include a site inspection by a Red Lake Electric representative. I understand that I am not allowed to receive more than one incentive from this program on any piece of equipment.
